📜 Discourse Dominoes — All Fragment Sets

This document brings together **all Discourse Dominoes fragment sets**, both original and IP-themed, for easy use and navigation.

Index

Original Themes

1. Heist at Stark Tower
2. Spaceship Launch Catastrophe
3. Quidditch Match Sabotage
4. Space Station Oxygen Leak
5. TikTok Cooking Challenge Gone Wrong
6. Train Rescue Gone Sideways
7. Lightsaber Duel on a Collapsing Walkway
8. Temple Trap Room Activation
9. Pirate Ship Mutiny at Dawn
10. Escape Room Date Gone Wrong
11. Haunted Manor Séance Gone Wrong

IP-Themed Sets

12. Stranger Things — Portal Malfunction at Hawkins Lab
13. Sherlock Holmes — Bomb Defusal at Parliament
14. Jurassic Park — Raptor Breakout in the Visitor Center
15. Breaking Bad — Lab Explosion
16. Lord of the Rings — Bridge of Khazad-dûm Collapse
17. The Last of Us — Infected Ambush in a Tunnel

---

1. Heist at Stark Tower

A thief infiltrates Stark Tower to steal the arc reactor while the security AI counters every move.

Main Clauses

- The thief hacked into the control console on the top floor.
- The security AI detected the intrusion within seconds.
- The arc reactor began to hum with unstable energy.

- The control console locked itself to block further access.
- The thief attached a pulse device to the arc reactor.
- The security AI rerouted power to trap the thief inside.
- The thief tried to override the control console's firewall.
- The arc reactor emitted a burst of blinding light.

Relative Clauses

- who had studied the tower's blueprints in secret
- who stayed unnervingly calm during the countermeasures
- who underestimated the AI's capabilities
- that powered the tower's defense systems
- that was stored behind multiple security layers
- that nobody outside Stark Industries had ever touched
- which triggered a building-wide security cascade
- which caught the thief completely off guard
- which made the situation escalate at lightning speed

Linking Expressions

- although the thief had planned for weeks
- despite the console's complex design
- because the AI adapted in real time
- even though the building looked empty at first
- while the alarms echoed through the floor
- in spite of the thief's careful timing
- as soon as the pulse device was armed
- as a sentient defense system would in a crisis
- like a predator toying with its prey

---

2. Spaceship Launch Catastrophe

A routine launch spirals into chaos as the pilot and engineer race to fix cascading failures.

Main Clauses

- The pilot inserted the navigation chip into the wrong slot.
- The engineer ran to the control panel.
- The countdown clock started flashing red on the control panel.
- The pilot slammed the emergency button on the control panel.
- The control panel began emitting a loud alarm.

- The navigation chip slipped out of the slot.
- The engineer tried to reboot the control panel.
- The navigation chip overheated and started sparking.

Relative Clauses

- who had skipped the final safety check
- who designed the launch sequence
- who stayed remarkably calm under pressure
- that was supposed to guide the ship to orbit
- that controlled every critical system on board
- that nobody had tested properly
- which made the alarms echo through the ship
- which caused the entire launch sequence to stall
- which sent warning signals flashing across mission control

Linking Expressions

- although the procedure had been rehearsed many times
- despite the engineer's clear instructions
- because the launch window was closing
- even though everyone was watching from mission control
- while the alarms were blaring
- in spite of the pilot's confident tone
- as soon as the countdown reached zero
- as a trained professional would in a crisis
- like a rookie making their first launch

---

3. Quidditch Match Sabotage

A rival secretly jinxes a Chaser's broom during a high-stakes Quidditch match.

Main Clauses

- The Chaser shot into the sky as the referee blew the whistle.
- The rival cast a subtle jinx on the broom during warm-up.
- The broom veered sharply toward the stands.
- The Chaser tried to stay balanced while clutching the Quaffle.
- The Quaffle slipped from the Chaser's grasp mid-air.
- The rival watched from below with a satisfied grin.
- The Chaser dove to regain control of the broom.

- The broom spun wildly as the crowd screamed.

Relative Clauses

- who had practiced relentlessly for the final
- who hid their true intentions behind a friendly smile
- who was determined to win the House Cup
- that carried the Chaser high above the pitch
- that had been secretly tampered with
- that carried the Chaser toward the scoring hoops
- which made the audience gasp in shock
- which caused the Quaffle to tumble through the air
- which turned the match into total pandemonium

Linking Expressions

- although the Chaser had trained for months
- despite the teachers' careful supervision
- because the jinx went unnoticed
- even though the broom had been inspected before the match
- while the crowd roared in excitement
- in spite of the Chaser's quick reflexes
- as soon as the whistle blew
- as a skilled player would under pressure
- like a comet streaking out of control

---

4. Space Station Oxygen Leak

A sudden breach threatens the station's life support systems.

Main Clauses

- The commander noticed the pressure levels dropping on the control terminal.
- The technician rushed toward the oxygen valve.
- The control terminal displayed a critical leak warning.
- The commander shouted instructions through the comm system.
- The oxygen valve began to hiss as air escaped.
- The technician tried to seal the valve manually.
- The commander activated the emergency protocols on the control terminal.
- The oxygen valve vibrated violently as the breach widened.

Relative Clauses

- who had worked on the station for over a decade
- who stayed focused under extreme pressure
- who had trained for emergency scenarios
- that regulated the flow of breathable air
- that connected to the main life support systems
- that nobody had checked in weeks
- which triggered station-wide alarms
- which sent the crew into a frenzy
- which turned a routine shift into a crisis

Linking Expressions

- although the systems had passed inspection
- despite the technician's quick response
- because the breach spread rapidly
- even though the leak started as a small crack
- while the emergency lights flashed
- in spite of the crew's training
- as soon as the alarm went off
- as a seasoned crew member would in a crisis
- like a rookie facing their first real emergency

---

5. TikTok Cooking Challenge Gone Wrong

A livestream cooking challenge turns chaotic when the sauce misbehaves.

Main Clauses

- The host poured the sauce into the sizzling frying pan.
- The influencer held the phone to capture the moment.
- The frying pan spat hot oil across the counter.
- The sauce started bubbling uncontrollably.
- The host tried to stir the sauce with a shaky hand.
- The influencer stepped back as the steam rose.
- The frying pan tilted dangerously toward the edge of the stove.
- The sauce splattered onto the ring light.

Relative Clauses

- who had never cooked live before

- who tried to keep smiling for the audience
- who had promoted the challenge all week
- that was supposed to thicken slowly
- that contained way too much chili
- that the host had prepared in advance
- which sent the viewers into hysterics
- which filled the kitchen with smoke
- which turned the livestream into a disaster

Linking Expressions

- although they had followed the recipe online
- despite the influencer's warnings
- because the heat was too high
- even though the sauce looked fine at first
- while thousands watched the livestream
- in spite of their nervous laughter
- as soon as the oil hit the pan
- as an overconfident host would during a livestream
- like beginners trying to impress the internet

---

6. Train Rescue Gone Sideways

A hero and villain battle for control of a runaway train.

Main Clauses

- The hero sprinted across the roof of the speeding train.
- The villain forced the control lever into the maximum position.
- The train thundered through the night at dangerous speed.
- The hero swung inside through a shattered window.
- The control lever jammed halfway back.
- The villain blocked the hero's path to the cockpit.
- The hero tried to pull the control lever free.
- The train tilted as it entered a sharp bend.

Relative Clauses

- who had sworn to protect the passengers
- who laughed over the sound of the wind
- who refused to back down

- that controlled the train's acceleration
- that had been sabotaged earlier
- that controlled the emergency brakes
- which made the passengers scream
- which sent sparks flying across the cabin
- which sent the train hurtling toward the bridge

Linking Expressions

- although the hero had planned for a stealthy approach
- despite the villain's clear advantage
- because the brakes were disabled
- even though the hero was exhausted
- while the train roared through the darkness
- in spite of the hero's injuries
- as soon as the lever jammed
- as a seasoned fighter would in a crisis
- like a stunt scene in an action movie

---

7. Lightsaber Duel on a Collapsing Walkway

A Jedi and a Sith clash over a reactor shaft as the structure collapses.

Main Clauses

- The Jedi ignited the lightsaber with a sharp hiss.
- The Sith stepped onto the unstable walkway.
- The energy core pulsed beneath them with a deep hum.
- The Jedi advanced carefully across the shaking platform.
- The Sith swung their lightsaber in a wide arc.
- The lightsaber blades collided with a flash of sparks.
- The walkway began to crack under their feet.
- The Jedi reached for the control switch near the edge.

Relative Clauses

- who had trained for years to face this moment
- who smiled coldly in the flickering light
- who refused to retreat
- that illuminated the collapsing walkway
- that contained dangerous levels of energy

- that both fighters relied on for their survival
- which echoed through the entire facility
- which sent debris tumbling into the abyss
- which sent cracks racing across the unstable walkway

Linking Expressions

- although the walkway was unstable
- despite the Sith's fierce attacks
- because the energy core was overheating
- even though the Jedi's footing was unsteady
- while sparks rained down from above
- in spite of the danger
- as soon as their blades clashed
- as a trained warrior would in battle
- like two forces of nature colliding

---

8. Temple Trap Room Activation

An archaeologist and a rival trigger a deadly mechanism deep underground.

Main Clauses

- The archaeologist unrolled the ancient map across the dusty floor.
- The rival explorer stepped backward without looking.
- The pressure plate sank with a deep, echoing click.
- The archaeologist shouted a warning too late.
- The ancient map fluttered as a sudden gust rushed through the chamber.
- The rival explorer froze in place.
- The archaeologist dashed toward the exit.
- The ceiling panels began to slide open above them.

Relative Clauses

- who had spent years searching for the temple
- who refused to share the discovery
- who realized the danger a moment too late
- that showed the location of the hidden chamber
- that triggered the trap mechanism
- that both explorers depended on to escape
- which sent dust cascading from the ceiling

- which made the walls rumble
- which turned the argument into a fight for survival

Linking Expressions

- although they had promised to work together
- despite the archaeologist's warning
- because the rival ignored the markings
- even though the map clearly showed the plate
- while the chamber echoed with grinding stone
- in spite of their shared goal
- as soon as the plate clicked
- as a seasoned explorer would in a crisis
- like treasure hunters caught in their own story

---

9. Pirate Ship Mutiny at Dawn

The captain and first mate face off as a mutiny erupts in a storm.

Main Clauses

- The captain gripped the compass as the ship lurched.
- The first mate shouted orders to the crew.
- The compass spun wildly in the captain's hand.
- The treasure chest slid across the deck with a loud thud.
- The captain drew their sword.
- The first mate blocked the path to the helm.
- The compass struck the deck as the captain stumbled.
- The treasure chest slammed into the railing.

Relative Clauses

- who had led the crew through countless storms
- who saw the mutiny coming
- who refused to surrender
- that guided the ship through treacherous waters
- that contained the crew's entire fortune
- that the captain swore to protect
- which sent a wave crashing over the deck
- which made the crew break into chaos
- which turned the dawn into a battlefield

Linking Expressions

- although the storm was approaching fast
- despite the captain's reputation
- because the crew had lost their loyalty
- even though the sun had just risen
- while the wind howled through the sails
- in spite of the captain's authority
- as soon as the first mate gave the signal
- as a seasoned sailor would in a mutiny
- like a legend being rewritten in real time

---

10. Escape Room Date Gone Wrong

A boyfriend and girlfriend struggle to keep calm as the puzzle box jams.

Main Clauses

- The boyfriend examined the puzzle box under the dim light.
- The girlfriend leaned closer to read the inscription.
- The timer ticked down faster than expected.
- The boyfriend insisted on forcing the next clue.
- The puzzle box jammed when they twisted it too hard.
- The girlfriend rolled her eyes in frustration.
- The boyfriend tried to pry open the puzzle box.
- The timer flashed red as the seconds slipped away.

Relative Clauses

- who thought the challenge would be romantic
- who started panicking as the timer sped up
- who refused to admit their mistake
- that hid the final key
- that was designed to unlock the door
- that nobody had broken before
- which made the atmosphere tense
- which caused them to forget the clues
- which turned the date into a disaster

Linking Expressions

- although they had solved the first clues easily

- despite the girlfriend's protests
- because the mechanism jammed
- even though the solution was right in front of them
- while the clock counted down
- in spite of their growing frustration
- as soon as the box got stuck
- as a panicked couple would in the moment
- like contestants trapped on live TV

---

11. Haunted Manor Séance Gone Wrong

A medium and skeptic encounter more than they bargained for during a midnight ritual.

Main Clauses

- The medium placed the spirit board carefully on the table.
- The skeptic folded their arms and raised an eyebrow.
- The candle flickered as a cold draft swept through the room.
- The medium called out to the spirits.
- The spirit board creaked as the planchette began to move.
- The skeptic leaned closer, trying to spot the trick.
- The candle flared suddenly, casting long shadows.
- The spirit board spelled out a chilling message.

Relative Clauses

- who had performed séances for decades
- who didn't believe a word of it
- who felt a shiver run down their spine
- that lay between them on the old table
- that responded to their touch
- that nobody had used for years
- which made the room grow silent
- which sent the skeptic stumbling backward
- which turned the séance into something real

Linking Expressions

- although the medium had done this many times
- despite the skeptic's smirk
- because the temperature dropped suddenly

- even though no one else was in the room
- while the house groaned around them
- in spite of their doubts
- as soon as the planchette moved
- as a seasoned medium would in the presence of spirits
- like characters trapped in a ghost story

---

12. Stranger Things — Portal Malfunction at Hawkins Lab

A late-night experiment at Hawkins Lab goes wrong when Eleven and Dustin accidentally trigger the portal machine.

Main Clauses

- Eleven pressed the button on the portal machine.
- Dustin watched the monitors as the readings spiked.
- The control panel began to flicker wildly.
- The portal machine emitted a low, growing hum.
- Eleven stepped back as sparks flew.
- Dustin shouted for her to stop the sequence.
- The portal machine shuddered as cracks formed in the walls.
- The control panel went completely dark.

Relative Clauses

- who had promised to keep the experiment secret
- who panicked as the readings climbed
- who didn't notice the warning lights in time
- that connected Hawkins Lab to the other side
- that displayed the energy levels
- that nobody outside Hawkins Lab could fix
- which sent a shockwave through the room
- which made the lights explode overhead
- which opened a rift in the wall

Linking Expressions

- although they thought they had disabled the machine
- despite Dustin's warnings
- because the sequence had already begun
- even though it was past midnight

- while alarms echoed through the lab
- in spite of their fear
- as soon as the hum intensified
- as experienced troublemakers would in Hawkins
- like a scene from a nightmare

---

13. Sherlock Holmes — Bomb Defusal at Parliament

Holmes and Watson work together to stop Moriarty's bomb from exploding inside the Houses of Parliament.

Main Clauses

- Holmes leaned over the bomb on the floor.
- Watson held the light steady so Holmes could see clearly.
- The bomb ticked faster with every passing second.
- The wires shook as Holmes removed the cover.
- Watson glanced toward the hallway nervously.
- Holmes reached for the thin wire near the center.
- The timer sped up suddenly.
- The room grew tense and silent.

Relative Clauses

- who had solved many puzzles before
- who trusted Holmes without question
- who stayed calm under pressure
- that was hidden under the floorboards
- that connected the timer to the explosives
- that nobody else dared to touch
- which made the air feel heavier
- which sent a chill down Watson's spine
- which turned the investigation into a desperate race

Linking Expressions

- although the hallway was quiet
- despite the tricky mechanism
- because the timer had been tampered with
- even though the building was almost empty
- while the clock tower struck midnight

- in spite of the danger
- as soon as Holmes cut the wire
- as a skilled detective would in a crisis
- like two minds working against time

---

14. Jurassic Park — Raptor Breakout in the Visitor Center

Two park staff members struggle to secure the building as raptors breach the visitor center.

Main Clauses

- The ranger slammed the emergency door shut.
- The scientist checked the control screen for security breaches.
- The raptors screeched from the hallway.
- The security door groaned under pressure.
- The ranger shoved their weight against the security door.
- The scientist triggered the alert on the control screen.
- The doorframe cracked as claws tore through the metal.
- The control screen flashed a red override signal.

Relative Clauses

- who had survived the first breakout
- who specialized in animal behavior
- who refused to abandon the center
- that was meant to keep the raptors out
- that displayed the perimeter locks
- that nobody had inspected that morning
- which sent chills through everyone inside
- which made the alarms blare even louder
- which turned the center into a hunting ground

Linking Expressions

- although the system had passed inspection
- despite the ranger's quick response
- because the override was triggered remotely
- even though the locks were reinforced
- while the raptors prowled outside
- in spite of their training
- as soon as the override signal appeared

- as a trained ranger would in a crisis
- like prey trapped in their own enclosure

---

15. Breaking Bad — Lab Explosion

Walter and Jesse lose control of a batch, causing a chain reaction inside the RV lab.

Main Clauses

- Walter poured the chemical into the beaker.
- Jesse adjusted the gas valve nervously.
- The beaker started to bubble violently.
- The gas valve began to hiss.
- Walter reached for the gas valve to shut it off.
- Jesse shouted as flames shot up around the beaker.
- The beaker cracked under the heat.
- The gas valve burst with a loud bang.

Relative Clauses

- who had insisted they could finish the batch tonight
- who didn't fully understand the reaction
- who tried to keep calm under pressure
- that contained the unstable mixture
- that regulated the gas flow
- that nobody had serviced in months
- which sent fire across the RV
- which made Jesse dive for cover
- which turned the cook into a disaster

Linking Expressions

- although Walter claimed to have everything under control
- despite Jesse's hesitation
- because the mixture was unstable
- even though they had done it before
- while the RV rattled around them
- in spite of their precautions
- as soon as the valve started hissing
- as desperate partners would in a crisis
- like a scene out of a chemical thriller

16. Lord of the Rings — Bridge of Khazad-dûm Collapse

Gandalf and Aragorn try to cross the ancient bridge as the Balrog approaches.

Main Clauses

- Gandalf raised his staff toward the Balrog.
- Aragorn urged the others to run across the bridge.
- The bridge cracked under the force of the impact.
- The Balrog roared from the shadows.
- Gandalf planted his staff firmly on the stone.
- Aragorn drew his sword to defend the rear.
- The bridge began to crumble beneath their feet.
- The flames grew brighter as the Balrog advanced.

Relative Clauses

- who had fought many battles before
- who refused to leave Gandalf behind
- who stood firm against the darkness
- that spanned the chasm of Khazad-dûm
- that connected the hall to the outer gate
- that no one had crossed in centuries
- which sent rocks tumbling into the abyss
- which made the company quicken their pace
- which turned the escape into a desperate stand

Linking Expressions

- although the bridge was ancient
- despite Aragorn's warnings
- because the Balrog struck the stone
- even though the path was narrow
- while echoes filled the cavern
- in spite of their fear
- as soon as the flames surged
- as heroes would in a final stand
- like figures out of legend

17. The Last of Us — Infected Ambush in a Tunnel

Joel and Ellie are ambushed while trying to clear a blocked tunnel.

Main Clauses

- Joel lit the torch to see through the darkness.
- Ellie crouched behind the barricade.
- The infected shrieked from deeper in the tunnel.
- The barricade rattled as something slammed into it.
- Joel braced the barricade with both hands.
- Ellie pressed her back against the barricade.
- The tunnel filled with the sound of footsteps.
- The barricade started to give way.

Relative Clauses

- who had survived countless attacks
- who stayed quiet to avoid detection
- who trusted each other completely
- that blocked the narrow tunnel
- that lit up the dark passage
- that no one had reinforced for years
- which sent dust falling from the ceiling
- which made Joel tighten his grip
- which turned the escape into a fight for survival

Linking Expressions

- although they had planned a quick route
- despite Ellie's fear
- because the infected swarmed the tunnel
- even though the barricade was weak
- while footsteps echoed through the dark
- in spite of their exhaustion
- as soon as the shrieks began
- as seasoned survivors would under attack
- like prey surrounded in the dark
